## 25,000,000 BUY LIBERTY BONDS

Washington, Oct. 21.—Probably 25,000,000 or more individuals bought bonds of the Fourth Liberty loan, unofficial reports reaching Washington today indicated. Because a large proportion of these filed their subscriptions during the last few days of the campaign, it will be a task of many days to count the number of pledges and to compile reports from the entire country.

Definite figures and the total subscriptions to the loan were not available tonight, but officials were confident the \$6,000,000,000 war credit had been over-subscribed.

Banks have until next Thursday to tabulate their subscriptions and report. Treasury officials declared it might be as much as two weeks before the results for the whole country are known.

Cato Sells, commissioner of Indian affairs, announced today that telegraphic reports received by him from the various Indian reservations show the Indians in this country have subscribed \$4,000,000. This brings the total subscriptions to the Fourth loans to \$20,000,000.

## NOTES FROM THE EMERGENCY HOSPITAL

Sixty-three patients were reported at the emergency hospital this morning and still more are to be brought in as rapidly as they can be arranged for. Two deaths occurred Sunday afternoon, but the other patients are doing very well.

A number of citizens are helping in various capacities, but still more is needed. One mother and daughter are taking it in twelve hour shifts and others are there at different periods. It has been a difficult matter to secure sufficient volunteers and with the increasing number of patients the demand is greater than ever. All who can help with the nursing should phone Mrs. Snead at Red Cross headquarters.

A great deal has been contributed, both money and articles needed, but Mrs. Snead appeals especially for milk, eggs, chickens, canned fruits, canned tomatoes, etc.

Stonewall and Roff Red Cross chapters have volunteered to do all in their power to help. Ladies of Roff spent Sunday making sheets, pillow cases and other articles needed at the hospital and will send help in the way of nurses. Stonewall has considerable sickness and cannot promise nurses, but will send needed articles and help financially. This aid from these two places is very timely.

## FITZHUGH BOY KILLED IN FRANCE

Today's casualty list carries the name of Ephraim Woodard of Fitzhugh among the killed in action. Thus another blue star on the service flag of Pontotoc county is replaced by one of gold, commemorating the passing of a young man who dared to die for his country.

## THE KAISER REPLIES TO WILSON'S NOTE

PROTESTS AGAINST CHARGES OF INHUMANITY  
ON PART OF HUNS—WANTS PEACE  
WITH HONOR.

(By the Associated Press)

London, Oct. 21.—Germany's reply to President Wilson's note, the text of which was received here today by wireless, says Germany hopes the United States will approve of no demand which would be irreconcilable with Germany's honor and with opening the way to a just peace. Germany protests against Wilson's references to illegal and inhuman acts. Denial is made that Germany purposely destroyed lifeboats with passengers. Germany proposes these facts be cleared up by a neutral commission. Germany has dispatched orders to submarine commanders precluding the torpedoing of passenger ships. Germany suggests to President Wilson that the opportunity be brought about for fixing the details of evacuation of occupied territories.

## ALLIES UNCHECKED IN BELGIAN DRIVE

HUNS UNABLE TO MAKE STAND. ALLIES ARE  
NEARING CITY OF GHENT. IMPORTANT  
RAILROAD THREATENED.

(Associated Press War Summary)

In spite of the German's endeavor to check their advance, Belgians, British and French continue their sweeping march from Tournai to the Dutch frontier. Official reports show they have reached points within ten miles of Ghent. The Belgians are along the Deyse-Eccloo canal, running northward from the Lys river. Farther south they have crossed the Lys at various points. Along the river the British have moved swiftly toward the Scheldt river. In this sector the Allies are moving toward the southeast, and it seems they will be able to reach Ghent with their main forces in a very short time. The Germans have flooded some of the country here, but it has failed to interfere with the progress of King Albert's armies.

British and American troops are fighting their way ahead along a ten mile front from east of Le Cateau. During yesterday they advanced a mile on this line and appear to have reached a point where they seriously threaten the railroad running through Avesnes and Berlaimont. This road is the principal German avenue of communication with the armies north and south of the wedge being driven into their lines by the Allies. Throughout Champagne there has been little change in the lines.

Sunday the Belgians chased a force of 15,000 retreating Germans across the border of Holland where they will be interned for the duration of the war.

### Quiet on French Front.

Paris, Oct. 21.—There was no infantry fighting of moment on the French front last night. The official statement today reports the only artillery activity between the Serre and Aisne rivers.

### Serbiens Nearing Danube River.

London, Oct. 21.—Franco-Serbian troops have entered Zaitchar twenty-eight miles from the river Danube at Negotin, forty miles northeast of Nish, according to Sunday's Serbian official statement.

### Americans Bring Down Seventeen Planes.

With the American Army Northwest of Verdun, Oct. 21.—In an all American bombing expedition behind the German lines Friday, American pursuit planes brought down seventeen German machines. Most of the victories have been confirmed officially. Not one American machine was lost and only one forced to land near Brioules. This was brought in Saturday by infantrymen.

### British Capture 3,000 Prisoners.

London, Oct. 21.—Over three thousand prisoners

Notice to Subscribers.  
Again we must urge all subscribers served by carrier boys not to pay money to the boys. Either pay at the office or to Mrs. Riddle, the city collector.  
\*\*\*\*\*

If the kaiser figured on his peace talk interfering with the success of the Liberty Loan, he has suffered another disappointment. Again the nation has gone over the top in true American style and the men in the field again assure that the people at home are solidly behind them and that they shall lack for nothing that money can buy. The kaiser and his bunch should be convinced by this time that America is in dead earnest and will not be humbugged by any of his fake peace proposals.

All the heroes are not at the battlefield. This statement can be verified by a visit to the emergency hospital which is largely cared for by volunteers, both men and women, who are working night and day in an effort to save the lives of the patients committed to their care. Without regard to personal danger they are performing their duties and will feel sufficiently rewarded if they can be instrumental in restoring the sufferers to health. Backing them all classes of citizens are helping financially and otherwise, each endeavoring to do his or her bit.

The Huns looked on President Wilson as something of a dreamer and idealist in times past and now find that he is in a frame of mind to make good his dream of freedom to enslaved people like the Czech-Slovaks, Belgians and Serbians. With the full American army and navy to back his dreams he is becoming a nightmare to the despots who imagine themselves appointed of God to rule the world. The American doctrine of freedom means the doom of the autocratic system for even the subjects of their own race will not willingly submit to the tyranny when they see the freedom enjoyed by other races.

The Thirty-sixth division, of which the First Regiment, Oklahoma National Guards is a part, has won high praise from the French commander for the valor displayed by the boys the first time under fire when they fought like veterans and assisted in turning the tide against the Huns at a critical point. A large number of Pontotoc county boys are in this regiment and received their training at Camp Bowie. Seminole county is also well represented, a company having gone from Wewoka. Of course it goes without saying that their friends at home are proud of the boys, but are not the least surprised, for we knew they had the stuff in them to make good fighters.

Reports from the fighting front today indicate that the Champagne front is to remain more or less inactive and all efforts be centered upon breaking the German resistance in the north, in an attempt to turn the right wing and envelop the entire German army north and west of Rheims. The ease with which the Germans were pushed back in Flanders indicates that the right wing has been weakened in order to send troops and munitions against the Americans north of Verdun. It is entirely possible that Foch figures he can rout the Germans next to the Holland-

border where the fortifications are naturally not strong and capture the armies in the Laon, La Cateau, and Cambrai sectors. Such a feat would end the German military machine.

## OKLAHOMANS IN THICK OF BATTLE

With the American Forces North of Rheims, Wednesday, Oct. 16.—Perhaps the most glorious page of American military history in this war has just been concluded in the Champagne battle in which two divisions of United States troops—the Second and the Thirty-sixth—have done their inadequately heralded part of forcing back the German hordes facing the famous city of Rheims.

First Time Under Fire.  
The work of the Americans was more notable because one of the American divisions—the Thirty-sixth—entered the terrific battle at an important point, although without ever having heard shell fire before. The division withstood the most bitter counter-attacks without flinching. The efforts of the two units were so noteworthy that they were praised publicly in an order issued by General Naul, in command of the Twenty-first French army corps, with which the Americans were brigaded.

## ALASKA PREPARING FOR LONG WINTER

(By the Associated Press)  
Fairbanks, Alaska, Oct. 21.—Most of Alaska is about to enter its long half-light winter semi-hibernation when ice and snow lock almost everything in their grip with a wintry clasp.

Already last steamboats making connections for the outside world are leaving the northern inland river towns. In a short time, Alaska's big inland summer water highway, the Yukon river, will be sealed tight with seven months' ice.

Throughout the country preparations for the winter are being made. Supplies are being laid in, for prohibitive freight rates prevail on the stage lines which serve the country in the winter.

Fairbanks, Nome, St. Michael, Ruby, Eagle, Anchorage, Tanana, Nenana and Fort Yukon are the largest points in the section of Alaska locked by winter. Seward, Cordova, Valdez, Juneau, Skagway, Ketchikan, Wrangell and other southern points are on open water the year round. This year Anchorage, for the first time, will be in touch with the outside world by railroad, the government line from Seward having been completed a short time ago.

LOST—Pocketbook containing \$18. Classification and registration card. Please return to News and receive reward. 10-21-31

## WILL SEND SOLDIERS BACK TO THE FARM

Washington, D. C., Oct. 21.—(Special)—A careful survey of the United States to find just how much land can be reclaimed by irrigation and drainage and turned over to returned soldiers has been begun by Franklin K. Lane, secretary of the Interior. Preliminary work is already being done in Oklahoma, where it is believed many thousands of acres of land can be made productive and valuable.

The committee on public lands of the Senate has unanimously reported in favor of a bill appropriating a million dollars to make surveys of farms for returning soldiers. In its report the committee says the proposed legislation is for the purpose of providing an opportunity to procure homes for those of our returning sailors and soldiers who may wish them upon their return from the war, as well as giving a like opportunity to thousands of workers in munitions factories and other war industries who at the conclusion of the war will be out of employment.

It is intended to promote as nothing else ever has the back to the land spirit. It is recognized that one of the great evils of the times in our country is the overcrowding and congestion of people in cities, many of whom are utterly unfitted for city life and not adapted to the vocations therefore. After the war this undesirable condition will be greatly intensified. Further, there will be hundreds of thousands of young men who will have returned from service in our army and navy who will be out of employment and for whom there will be no jobs or positions.

In addition there will be thousands and thousands of men and women, now employed in munitions factories and other war industries which will have to close at the end of the war, who will be out of employment. Many of them will have saved at their employment and with which they could locate upon and improve land and engage in agriculture, horticulture, or livestock raising.

All of the above described classes of people will be needed on the land. The land will need them and they will need the land. It should be the object of the government and it is the object of this proposed legislation to provide them with the opportunity of getting on the land.

Furthermore, the undertaking which this proposed legislation contemplates if embarked upon by the government, would afford employment to thousands of men who will be out of employment at the termination of the war, when there will be a scarcity of employment in this country and when the idle will be clamoring for employment.

This bill is in line with proposed legislation suggested by the secretary of the Interior, and the committee believes it of great importance. The committee further believes that it should be attended to in ample time and that no time should be lost in doing so. The war may end in another year, and if this scheme is to be embarked upon at all no time should be lost in doing so. The com-

Illinois St., Chicago, Ill. 10-21-1t\*

## GAS FACTORY FAVORITE MARK OF AIR RAIDERS

London, Oct. 21.—(Correspondence of The Associated Press)—The Badische poison gas plant at Mannheim, in the Rhine Valley, is a favorite object for "strafing" by the British airmen. Three consecutive raids upon it by night have extensively damaged it. The raiders' bombs partly destroyed the sulphuric acid and nitric vitriol factory and the aniline department. Other buildings of the plant were wrecked.

The other factories at Mannheim have been heavily bombed eleven times.

A heavy death roll has attended numerous air attacks on Cologne and Coblenz where the Germans are being heavily repaid in their own coin for their murderous work on London and Paris. The factories and railway station at Saarbrücken have been bombed ten times by the British; Karlsruhe, five times; Frankfurt-on-the-Rhine, three times; Stuttgart and Zweibrücken, twice.

Most of the air attacks in the Rhine provinces have been directed against the key railway centers, notably those at Thionville and Metz-Sablon. The famous railway triangle at Metz-Sablon and the junction at Thionville have been raided forty-six times. Photographs taken by the attacking airmen confirm the extent and magnitude of the damage done.

War traffic through Metz-Sablon has been materially reduced as a result of the frequent raids at a time when quick and regular transport of munitions was vital to Germany's military needs.

The big industrial centers on the Rhine contain, in addition to important railway junctions, some of the largest munition, poison gas and electrical plants in Western Germany. These military objectives have been attacked repeatedly with marked effect.

**Notice Members of the W. O. W.**

If you are in need of more insurance why not take it in your own order as you can carry \$5000 with it; no war tax or local camp dues for the additional policy. For particulars see C. E. Cuning, Clerk.

**WAYNE WADLINGTON, C. C.**  
10-21-2t\*

**Onions for Pneumonia.**

Take six (6) to ten (10) onions according to size, chop fine, put in large spider or pan over a hot fire, then add the same quantity of rye meal and enough vinegar to form a thick paste, in the meantime stir thoroughly, letting it simmer five or ten minutes. Then put in a cotton bag large enough to cover the lungs and apply to chest as hot as patient can bear. In about ten minutes apply another and thus continue to re-heat the poultices. In a few hours the patient will be out of danger. This simple remedy has seldom failed to cure this too often fatal malady. Usually three or four applications will be sufficient, but continue until perspiration starts freely from chest.

A pledge is binding. Do not fail to buy your War Savings Stamps.

# BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

## SCOUTS GUARD FLYING FIELD

Eight boy scouts of Dayton, O., are in war service for sure. Taking the place of men, they are employed as guards at McCook aviation field. They are a mighty proud lot, for they are being treated just like enlisted men.

The scouts spend the nights at Camp Pershing, and an army truck hauls them to the field. McCook is something more than a flying field. It is a laboratory of aviation where new appliances and devices for airplanes are tested. Practically everything within the high-board walls which surround the field must be closely guarded as a secret. Identification of every employee as he passes the gates is thorough.

A scout accompanies every other person, and sees to it that he goes straight to the place where his business carries him and that he leaves the field immediately after his task is finished. The scout is on a sharp lookout for cameras and reports any incident out of the ordinary routine.

The military commander of the post at McCook field reports as excellent the conduct and behavior of the scouts on duty there. The authorities have now asked for two patrols of boy scouts as messengers to be used at the field.

## COOKING TESTS THE SCOUT.

The way to a man's heart is through his stomach. The path to an early grave lies along the same route. A scout who cannot cook can hardly claim to be a scout at all.

As the chief sea scout says: "One fairly good cook is worth more than four sick carpenters."

To many a boy the first experience in cooking comes through his preparation for the second-class cooking test. He may have roasted corn on a stick or steamed a few clams in a bucket or burned a few spuds in an open fire. But the scout cooking test, if properly emphasized, will help him to see that cooking is vitally related to human life and essential to human happiness and efficiency.

Even in so simple a meal as the quarter of a pound of meat and two potatoes of the scout test many mistakes may be made, and the scout should know how to avoid all of them.

Many a professional cook fails utterly when asked to prepare a meal in the open without the kitchen equipment to which he has become accustomed. The scout must be ready to meet all emergencies.

## LEARNING FIELD TELEGRAPHY.

Boy Scouts Carrying Apparatus for Signalling in the Field.

## A GOOD SCOUT TROOP GONE.

It is not often that there is pleasure in the preparation of an obituary notice. In the case of one troop which has just become defunct there is, however, a peculiar satisfaction in noting its timely end. The story is contained in the following letter from Field Scout Executive Stephen M. Major of Chicago, Ill.:

"Troop No. 312 of Chicago will not be registered this year. Every one of the boys but one are in the service. This was a troop of older boys, and when they come back they will all be scoutmasters or assistant scoutmasters."

"The one who is not in the service is not quite old enough to get his parents' consent, but is going to technical school, so that the minute his birthday arrives he will be ready."

## SCOUT REWARD THANK YOU.

A typical story of the spirit of the boy scouts was told by a Memphis man. One night when it stormed he was driving home in his car at high speed, and he hit a boy. The boy was rescued and handed to the man by a boy. He felt the hat owner dropped some coins in the boy's hand and started his car. He was stopped by the boy, who returned the money and said: "Thank you just the same, sir, but I'm a boy scout."

## A Tip From The M. D.

To Accurately Compound a Prescription is as essential as to Properly Prescribe.

The relation of the Doctor to the patient is vital. The dependence of the Doctor on the Druggist is vital.

THINK IT OVER. Ask your Doctor about US.

## MUCH FARM WORK NOW BEING DONE BY AMERICAN WOMEN

Y. W. C. A. LAND SERVICE COMMITTEE GIVING SPECIAL ATTENTION TO NEW PROBLEM.

Women are doing a large share of the farm work of the country, according to officials of the Young Women's Christian Association, which has maintained special secretaries to assist women and girls so engaged. High School girls in New York are threshing grains and gathering fruit. Polish women in New Jersey have picked the fruit crop; college girls in Ohio have been doing general farm work, while both girls and boys in the state of Washington have been gathering fruit.

Recruiting farm labor is not a part of the work of the Young Women's Association, but it has sought to aid the women and girls engaged in it by showing the best ways of caring for farm laborers and their children. The Association seeks to lift the responsibility of housing and feeding the laborers from the farmers' wives.

The Association plans to continue its work of this kind through the Land Service Committee, and in instances where there has been a demand for labor it has investigated certain occupations where business is not so brisk in the fall, with a view of finding where additional labor may be secured.

## WOMEN WORKERS MAKE MUNITIONS FOR UNCLE SAM

Women are engaged in making munitions in twenty-two munition cantonments built by the United States. Little publicity has been given to the location of the plants, but most of them are located at quite a distance from cities or towns. Those near towns are so much larger than the towns that accommodations have been provided for the women employees at the plants.

Upon the request of the United States government, at each of these munition factories, War Service Clubs have been organized by the Young Women's Christian Association, and a secretary with sufficient assistance has been placed in charge. In all cases provisions have been made for recreation of the women, and some social advantages have been given. In some cases a cafeteria, where the women could buy satisfactory food at acceptable prices, have also been inaugurated.

Female labor in making explosives has been found satisfactory but government officials early recognized the peculiar problems involved in the employment of large numbers of women, and have first called on the Young Women's Christian Association for aid, and attributed much of the success of the plants to the aid so received.

## ACTRESSES AT ARMY CAMPS MADE AT HOME BY Y. W. C. A.

Entertainers, particularly the women who go in groups to play in the Liberty Theaters at Camp Dix, N. J., or Camp Upton, L. I., will find "Players Houses" have been built for them by the housing committee of the War Work Council, of which Mrs. John D. Rockefeller, Jr., is chairman.

The distance of the camps from cities and the consequent difficulty of getting to town after a strenuous day in the theaters, caused Chairman Fosdick of the Commission on Training Camp Activities, to ask the Young Women's Christian Association to build houses at two camps for the actresses.

Each "Players House" will accommodate thirty women. They are modern and pleasant, having living and rest rooms where the actresses may spend their leisure time and rest between their appearances for the benefit of the soldiers.

## Y. W. C. A. UNIFORM NOW GOOD AS PASSPORT IN FRANCE

Paris, France.—The Blue Triangle on the sleeve of the Young Women's Christian Association's uniform has become a passport to social circles. It wins most distinguished consideration from every one and places the wearer in a semi-official position, according to American women wearing the badge here.

"One of the queerest things over here," says a secretary newly from the states, "is the fact that any one in uniform, men and women alike, has a perfect right to speak to any one, which is far from expected of those in civilian clothing. When I came I had great difficulty in checking my baggage because I was in civilian clothing. Now it is a simple matter, as our uniforms receive immediate recognition and consideration everywhere."

## THERE ARE OTHERS

The Big Man—She's a business woman.  
The Little Man—What business is she engaged in?  
The Big Man—Everybody's.

## VAIN HOPE

"What's the matter, parson?"  
"I was just wishing that people would struggle to get into heaven like they struggle to get into society."

## IMPOSSIBLE

"He—I understand he painted cobwebs on the ceiling so perfectly that the maid wore herself out trying to sweep them down."  
She—There may have been such an artist, but there never was such a housemaid.

## DECLINED

Author—I have a story here about the underworld.  
Editor—We have all we can use about the subway, thank you.

## WIFE'S WILL

Wangs—Has your wife made her will?  
Bangs—No; she's merely developed it.

## Warner's Rust-Proof Corsets

## TEN DEATHS IN PAST TWO DAYS

The following deaths in and around Ada have occurred during the past two days, all due to pneumonia resulting from influenza:

Annie Belle Fletcher, the one-year-old daughter of John Fletcher and wife, West 13th street.

Laural Walter Padgett, the six-year-old son of Enoch Padgett and wife, West 13th.

Tom T. Pennell, aged 34, Portland Park.

Mrs. Gracey May Nation, age 31, wife of C. A. Nation, at emergency hospital. Interment at Egypt cemetery.

Mrs. Lula Burris, aged 33, wife of James Burris. The body was taken to Coleman, Oklahoma, Sunday evening for interment.

Henry Adcox, emergency hospital. Interment at Oakman.

Mrs. Ida Mae Tippet, aged 44, wife of J. H. Tippet, 220 W. 12th. Deceased is survived by six children.

Naomi Pauline Escue, the 2-year-old daughter of Mr. and Mrs. Escue, West 9th.

Peat Russell, aged 5, son of Charley Russell and wife, four miles south of Ada.

Mrs. Annie McAllister, aged 34, wife of Henry McAllister, 812 West 14th.

## FUNERAL OF JOE STAATS

The funeral and interment of Joe Staats, who died in this city Saturday morning, October 19, at 6 o'clock, took place at Stratford Sunday afternoon at 3 o'clock, Rev. Mr. Smith of Stratford, officiating. The remains were interred with Masonic honors, deceased having been a member of the lodge at Stratford.

With the passing of Joe Staats Ada loses one of her very best young men. Deceased was a man of high character and unquestionable habits. He was employed by Bart Smith as a pharmacist and was well liked by all who had enjoyed his acquaintance. Besides his father and mother he leaves a young wife and a baby boy to mourn his death.

Those attending the funeral from Ada were, R. E. Brians, J. O. Abney, Homer Phelps, Bart Smith, John Thrasher, Henry Johnson and Garvin Atkins.

## THE CHEERFUL CHERUB

When readers write to me My pride is quite immense. Especially of late. For now it costs three cents.

## WEATHER REPORT.

Generally fair is the weather outlook for Tuesday.

## WANT ADS

POSITION WANTED—By lady experienced in abstract and real estate office work. Any essential work. Address Box 414 or phone 586 after 8 p. m. 10-21-3t\*

## Piano Playing.

No instrument has such a vast literature, as rich and voluminous, as the piano, and more people are teaching and studying it than any other instrument. The reason that, in spite of its popularity, there are only few who play it well and artistically is that the majority of people consider piano playing more as a means of amusement and a pleasant diversion than as a medium with which it is possible to produce the deepest feelings and the highest in art.

## Great Old Southern City.

Mobile is in most ways the typical Southern city, with a lazy climate, soft voice, omnipresent cloud of darkness, bright green robe of trees and rank shrubs, and a scattering fleet of interesting vessels from the West Indies at the port for good measure. Like most of the South, she is looking forward to a commercial future rather than back at an aristocratic past—change.

## Where Ancients Excelled.

Although tunneling is among the most ancient of enterprises, more progress has been made in the last century than in the twenty centuries which preceded it. It is now known that back in the semimythical days of the Theban kings the long tunnel into the mountain rock, expanding at a distance of 400 feet or so, into some lofty chamber, was a common work. The rock temples of Nubia and India, too, show that in certain matters at any rate moderns may still learn from the ancients.

## "Soul of Wit."

Someone has said that "brevity is the soul of wit." It is, and in these strenuous times it would seem a very good idea to apply the same maxim to other channels of conversation. The man or woman who can handle an important subject briefly is sure of a royal welcome wherever he or she seeks an audience.

## Backward.

James was standing beside the cradle of his month-old brother, trying to quiet him, when his mother came in and picked the baby up. After picking him up, she said to the father: "I really do not know what is the matter. Joseph will be eleven months old tomorrow and he has only two teeth." James said: "Gee, that ain't nothing. Grandma's eighty years old and she only has one."

## Speeding Up.

Worthy companion to the celebrated painter who, when the paint got low, hastened to finish the floor before the paint gave out, has been found in the woman knitter who sat up late to finish a scarf because she had so little yarn!

Congressman Tom D. McKeown arrived at home Saturday evening and will remain here a week or two. He was one of a committee sent to escort the body of Congressman Meeker to its last resting place and took advantage of being so near home to drop in a few days. Just now the House is marking time while the Senate disposes of the important measures already passed by the House, otherwise the congressman would be found right at his post just as he has been since the first day congress met.
